

Josey Koehn- Candidate Bio

Josey was born and raised in a rural agricultural community in northeastern Oregon and has spent the past two years studying Speech Communication here at Oregon State University. She has spent her time at OSU involved with on campus volunteer activities including the VoteORVote campus voter registration campaign and the Beaver Hangouts mentoring program. Josey has also been a student employee since 2015, working both as an office assistant for the Speech Communication department and in Marketplace West dining facility. In the past year she has developed her student advocacy skills by working in conjunction with OSA and ASOSU to lobby for tuition affordability to local and state legislators. Josey hopes to offer a fresh perspective on the inner workings of ASOSU from someone new to collegiate student government. If elected as Vice President of ASOSU, Josey would work tirelessly to understand every aspect of the student experience at OSU, and do everything in her power to improve it.
