## PUTTING THE STUDENT BACK IN STUDENT GOVERNMENT

President: Hevani Fifita

Vice President: Hunter Briggs

### ***Transparency***

Student government and ASOSU elections should not only be accessible to students, but also highly visible in student affairs. We feel that a fresh perspective must be brought to ASOSU in order to improve current student government outreach. We will improve upon election procedures and promotion in order to make ASOSU more accessible for our peers, no matter their campus affiliation.

### ***Respect***

We believe that every student has the right to their beliefs, and we will respect all student voices as representatives of the student body. As students at a university, we are granted freedom of speech, and we take that right very seriously. No one voice matters more than another here on campus, and we will see to it that all students have a say in student affairs.

### ***For the Students***

Student government should be just that- student-centered, and student informed. In order to represent our student body most effectively, we will hold monthly community town hall meetings in order to hear out student needs and develop solutions for the betterment of our student body as a whole. We will listen to students regardless of their race, gender identity, sexual orientation, ability, political affiliation, etc.

### ***Affordability***

No student wishes to pay more than they already do for tuition. Ed Ray stated at this year's State of the University Address that the deficit OSU with face due to lack of state funding will fall on the backs of students. With that in mind, we will fight to negate all tuition increases for the upcoming school year for all students, undergraduate and graduate, resident and non-resident, domestic and international. We will also expand existing textbook lending programs on campus so that students can access cheaper alternatives.
