

Senator Emerson: Due to missing 2 of our voting members it might be smarter to make this a work session since you typically need 2/3s to approve votes.

No one objected:

Senator Kieran: Would Outreach want to have a clubs and orgs liaison?

Senator Emerson: They could – but this document would not have to be edited for that to happen, they could change it in their own bylaws

Senator Adison: I agree, and they've discussed doing this. Due to the limited number of liaison positions it might be better to have something not written in the standing rules in case there are less people on outreach next year.

SFC member Dylan: It's good to keep in mind that committee bylaws are different from standing rules, which are different from statutes. They used to all be on different documents.

Senator Kieran: Do we want to separate them again

Senator Adison: We could, we also talked about adding a description here.

Senator Emerson: Let's try and finish rules 1-5 and 10 next week

Senator Adison: Let's also try and comment on comments so we have more thoughts written down to review

SFC member Dylan: Yes, but maybe leave a week between writing all the changes and approving them to make sure it makes sense

Committee approved the agenda (added Dylan to committee members), there were no Gallery or member comments.
