4. Discussion on rule 10
 - a. Proposed addition to section 10 voting:
 - E. Abstentions are counted exclusively for reaching quorum, and do not count towards or against any vote. Thus, the outcome of a vote is to be tallied by the ratio of ayes to nays.
 - F. Veto overrides are to function as a supermajority (2/3rds of members present) vote, in which ayes are counted against nays, and abstentions are to be removed. Partial veto overrides are not permitted, and the result of the vote is to be understood as the Senate's determined outcome of the attempt to overrule the veto.
 - b. Eckman, Knox, Lau, Pearson voted aye, Perfect Abstained
5. Emerson commented on having public health precautions added to standing rules for in person meetings.
