President & Vice President

Julia Hayes | Angelo Arredono
Major: 3rd year majoring in Political Science

Prior Experience: Julia is serving as an ASOSU Senator as well as a member in Greek Life. Angelo is currently serving as the ASOSU Policy Director.

Bio: During my time here on campus I've noticed the deep lack of connection between the student body and ASOSU. While various administrations have promised to bridge this gap, the disconnect only seems to grow. I am committed in my work to facilitate a transparent, personal, and dedicated leadership that includes ALL students. The ASOSU Presidency is not about me, rather it is about enhancing and lifting the profile of ASOSU to motivate each and every one of you and harness your energy to make substantive change. I hope you give me the privilege to serve you.

Platform: Our campaign is geared towards engaging in student collaboration. We look forward to increasing ongoing efforts to engage with various groups on campus as well as with the Board of Trustees and the OSU Administration. A huge role ASOSU is tasked with is allocating around $33 million of your money to fund the eight student fee funded resources here on campus. ASOSU is committed to making sure every student's needs are met and making sure this campus is safe, inclusive, and accessible. That is why ASOSU is working on increasing student pay to biweekly and expanding student micro work hours past the minimum of 20 hours. We are committed to including each and every student in creating change. In this change here is what we are committed to improving and expanding:

- Increasing Transparency of ASOSU
  - Involving student voices in the allocation of your money to student fee funded units.
- Prioritizing inclusion/accessibility
  - Build a relationship with cultural centers, increase overdose prevention and awareness by expanding on Narcan distribution/training. Increase accessibility of emergency contraception by making it available in many different places on campus, work on improving accommodations and accessibility for disabled students.

Carissa O'Donnell | Dakota Canzano
Major: 2nd year Honors College student majoring in Environmental Economics and Policy

Prior Experience: Carissa is serving as an ASOSU House Representative as well as a member of the Honors College Leadership Circle. Dakota is currently the Intercollegiate Athletics Liaison for the Student Fee Committee and am a marketing intern for Oregon State Athletics.

Bio: I am working to master juggling; the art of balancing different aspects of life both in and outside the classroom including being a member of the Honors College Leadership Circle, an ASOSU Congress-member, a bandmate (yes, like Hannah Montana), an intern working in developing nations, a published author, skier, tennis player, longboarder, and finally human (because sometimes we forget to mention that part). I owe much of this success to caffeine and the amazing support system around me.

Bio: Hello Beaver Nation! I am from Clackamas, Oregon. I am ecstatic to go through this election process to serve OSU students. I have struggled and dealt with anxiety and OCD every day, and let’s be honest: the wait for CAPS is too long, and there needs to be more resources. This is something we intend to solve.

Platform: We are here for you. As students of Oregon State, you have the right to transparency and to know and understand how ASOSU serves you. Our goal is to inform and advocate so that you have the resources to use your voice and make informed decisions about your student experience! All Dakota and I ask is that we be your metaphorical microphone. Here's where we’ll start:

- Bridge the gap
  - Communication and authenticity is everything when it comes to the connection between students and our student government. For us, this means enhancing access to resources and information for students so that we can all be involved at whatever level feels best. Knowing the option of participation is there and knowing the functions of your student government and the role you play will encourage us all to be transparent, approachable, and more intertwined.
- Promoting mental health care
  - Lack of mental health resources affects all student groups differently, and no one should be left without access. By working directly with CAPS and Student Health Services at an institutional level, we can get a better scope of the situation and address change.
Protecting Beavers
- Promote a $15 dollar minimum wage for non-student fee funded workers; Increase awareness regarding sexual assault; Implement a wellness area with sleeping pods in a concentrated part of campus.
- Improving Student Experiences
  - Increase hall hours; Increase funding for Athletic Bands and clubs; Expand transportation services by developing more effective ways for students to commute from outside cities. Alongside with our partners at the City of Corvallis, we will work on increasing renter protections for all students.
- Creating student employment opportunities
  - This initiative is not new to ASOSU but we hope to continue the efforts supporting student employees. This means raising max working hours, keeping wages current with inflationary trends, and providing student employment benefits as well as exhausting the resources ASOSU has already allocated to this initiative.
- Community-based advocacy and equity
  - Currently there is limited accessibility to non-binary and Disability-Accommodating restrooms due to the traditional infrastructure of many older buildings. This shouldn't be the case!
- Designing a sustainable campus
  - Sustainability is commonly absent in our lifestyles due to lack of accessibility.

SFC Chair

Matteo Paola
Major: 5th year majoring in Political Science with a minor in chemistry
Prior Experience: ASOSU House Representative for 2 years, current ASOSU President.

Bio: As ASOSU President I have supported pilot lounges for an international student center and Disabled student center, I have supported Cost of Living Raises for student workers, successfully helped advocate to raise the maximum work hour limit for student employees, and through budget cuts achievable through the New ASOSU Constitution passed last year (which I sponsored, and ended up passing with 89% of students voting in favor) have made ASOSU the only student fee funded unit to not ask for an increase in the fee setting process this year, with no reduction in service for Saferide, Office of advocacy, or Student Legal Services.

Platform: I decided to run for Chair because my experiences as an ASOSU Rep. and as the ASOSU President have allowed me to see the many beneficial impacts these fees can have, but also the many challenges that high fees costs place on students. If elected, I plan to increase transparency and student involvement in the fee-setting process and work to prevent massive fee increases while still supporting services that are essential to student wellbeing.

Noa Stoll
Major: 3rd year majoring in Environmental Sciences major with a minor in Political Science
Prior Experience: ASOSU Senator, and participant in the University Legislative Scholars Program.

Bio: My passion for advocacy, sustainability, social and environmental justice, and public health drives my work on behalf of students, and I am eager to bring this enthusiasm to the Student Fee Committee. In my free time, I enjoy crocheting, spending time with my friends and family, and, more than almost anything, football! You can usually find me stuck in the McDonald's line at midnight waiting for a #7 and an Oreo McFlurry, hanging out with my roommates' sassy cat, Walker, or finding a way to fit the Buffalo Bills into every conversation. Through the SFC, I hope to continue the effort to bridge the gap between ASOSU and the student body, and am very much looking forward to connecting with you over the course of this campaign!

Platform: My platform is simple: as chair, I want to ensure the fee-setting process is centered around student voices, and that you are aware of the many opportunities to get involved and make an impact. The SFC isn't solely here to decide what we should pay for - it was established to keep student priorities at the center of conversations so the fee can be set according to what is most valuable to your student experience.
Below are some initiatives I have worked on:

- Secured funding and established an international Student Lounge, with space allocation agreements underway for a Disabled Student Lounge
- Supported ASOSU Resolution seeking the establishment of a SafeWalk Program (Began Feb. 6th 2023!)
- Authored an ASOSU resolution seeking changes to OSU’s Survivor Advocacy And Resource Center (now Center for Advocacy, Prevention, and Education; CAPE), which increased student utilization of CAPE, got funding for additional survivor advocates, and increased student involvement in Student Health Services hiring processes
- Supported the revival of the Student Health Services Advisory Board
- Member of the 2022 ASOSU Constitutional Convention and Sponsor of the final constitution which passed last year with nearly 90% voting in favor, allowing for more efficient and democratic governance
- Built a coalition of students, graduate union members, and unionized faculty and staff to coalesce around issues like survivor-centered reform and increasing wages on campus
- Supported efforts that established a $15 minimum wage for all fee-funded units

Here is what I want to work on if elected your next SFC Chair:

- Lobby at the state level to support higher education and basic needs funding that will reduce the fee burden on Students
- Support student involvement not just in the Student fee process, but also other processes that are less democratic in nature such as the University Budgets Committee and CAPS/SHS Advisory boards to advocate for funding to go towards things like CAPS therapists to reduce month long wait times
- Prioritize student wellbeing, pay, health, and safety - Increase transparency of both the SFC’s and OSU’s fee setting process
- Raise wages for ALL Student workers

I have observed a massive disconnect between ASOSU and the student body, especially in terms of awareness of how impactful your voice is in the student fee-setting process. As SFC chair, I want to work toward removing any barriers between this process and direct student involvement. I plan to guide conversations so that they always come back to a question that is best answered according to your input - will what we are approving benefit OSU students? I hope to effectively communicate opportunities for involvement such as attending SFC and Student Advisory Board meetings, or speaking with me one-on-one about any suggestions you may have. Being assured of what student priorities are will help the committee set the fee at a level that best works for you.

However, keeping students at the forefront of conversation is only half the battle. Decisions on what resources are worth your money mean nothing if you are not aware of opportunities to use them. In my current role as a Congressional Outreach Committee member and into the future, I am invested in making a significant effort to publicize accessible and digestible information about the services our fee-funded units provide. Essentially, my goals are your goals. The Student Fee Committee is for students. I cannot successfully fulfill the role of Student Fee Committee Chair without your input and participation, and I am grateful for the chance to represent you in such a substantial and impactful way. I hope you’ll trust me with the responsibility of making the fee work for you. As always, Go Beavs!
SFC At-Large

**Abukar Mohamed**

**Major:** 3rd year majoring in Accounting  
**Prior Experience:** I am working at the Lonnie B. Harris Black Cultural Center as a Community Relations Representative, Vice President of the National Association for the Advancement of Colored People, Vice President and treasurer of the Rho Beta chapter of Alpha Phi Alpha Fraternity  
**Platform:** As an SFC At-Large Member, I will strive to ensure that student voices are represented during the budgeting process. Additionally, I will hold the SFC accountable to the OSU community. Finally, I believe it is crucial to be proactive and forward-thinking in budgeting decisions. As an At-Large Member, I will work to ensure that we make decisions that have a long-term impact on the OSU community.

**Spencer Pederson**

**Major:** 3rd year majoring in Business Information Systems.  
**Prior Experience:** Involved in Fraternity and Sorority Life as well as volunteers for Corvallis Parks and Rec.  
**Platform:** My main goals if elected to the student fee committee would be to provide an unbiased distribution of funds to the eight different fee funded units, while still providing an affordable college experience without too many fees for our student body. One area I'd hope to dedicate more funding to is the basic meals center. This center is mostly focused for underprivileged students who can't afford meal security or other basic needs, and I think giving people an equal opportunity for education no matter their financial situation is an important issue to take a look at. Over the last two plus years at Oregon State, I have been provided with a wealth of opportunities to hone my leadership skills and qualities and I have jumped at every chance. I would love to be a member of your 2023-2024 ASOSU Student Fees Committee.

**Sophia Nowers**

**Major:** 2nd year majoring in Agricultural Science with a minor in French.  
**Prior Experience:** Current ASOSU Records Clerk.  
**Platform:** The Student Fee Committee (SFC) is an integral part of the setting of the student fee, which will break $500 per student per term for next year. That's over $32 million dollars in student fees that goes to services utilized by most if not all students on campus. Students very much need to be engaged in this process. All this money comes out of our pockets and should be used to provide services that students actually use. I will work to ensure that students are aware of what their money goes towards, and that our views are given the time and consideration they deserve during the SFC process. As a student body with control over this much money, we can create a huge amount of positive change at OSU, and to uplift each other and our community. The student fee should be set and allocated at a level where all students get the most bang for their buck—where the fee is as low as possible but the services we all use and benefit from can still be provided. I look forward to hearing your perspectives on the student fee process!

**Cole Peters**

**Major:** 2nd year majoring in Supply Chain and Logistics Management.  
**Prior Experience:** Currently a Resident Assistant  
**Platform:** I care deeply about making my residents feel like they are a part of the OSU community and can thrive in this college environment. Over my past year working here, I have witnessed the plurality of issues that students here at OSU face. Mainly, many of my residents, who are first-year students, have struggled with mental health issues as the transition to college can be very stressful and isolating, especially when they are coming from out of state and don't know anyone here. While OSU does have excellent programs to help address the mental health issues that students face, such as free counseling, support groups, the mind spa, etc. offered through CAPS, many students remain unaware of what those services are and how to access them. If I am elected to the student fees committee, I hope to use my position to help spread awareness of the mental health services offered by OSU as well as to allocate more funding towards supporting the CAPS system and its initiatives. Additionally, I would also like to allocate more funding towards the OSU's Basic Needs Center, as the services and support they offer act as a crucial safety net for many in the OSU community.

Dola Popoola
Major: 1st year majoring in finance and marketing with a minor in sociology
Prior Experience: Vice president of high school student council for 4 years.
Platform: Student voices, inclusivity, & accountability.

Evan Rudisile
Major: Undergraduate
Platform: Academic success, sustainability, mental health.

Nathan Schmidt
Major: 2nd year pre-law student.
Prior Experience: Current ASOSU House of Representative, works in RHA.
Platform: Outreach, student resources & wages

Sarah Theall
Major: 3rd year majoring in agricultural sciences with a minor in agricultural sciences and natural resources communication.
Prior Experience: Current ASOSU House of Representative, worked as a wildland fire dispatcher, also a member, and soon officer, of the Collegiate Farm Bureau at OSU.
Platform: Transparency, student fees, and student advocacy.

Audrey Porter
Major: 3rd year majoring in political science and public policy.
Prior Experience: Spent time lobbying for local and national policy, FSL.
Platform: Transparency, student fees & resources.

Connor Roberts
Major: 2nd year majoring in public policy and economics.
Platform: Student housing, UHDS.

Rhyans Stephenson
Major: Undergraduate majoring in civil engineering
Platform: Funding for student orgs, sustainability, safety.

Gabriel Thomison
Major: 3rd year majoring in political science.
Prior Experience: TOUR Ambassador for the Office of Admissions.
Platform: Outreach, transparency, safety.

Riley Walsh
Major: 3rd year majoring in psychology with a minor in biochemistry and molecular biology.
Prior Experience: High school student government.
Platform: Student housing, UHDS.
